Upgrading and Overhauling Examples

Retrofit & Overhaul

General.

The company has been a contractor and supplier to programs on land based weapon systems for more than 30 years.

The programs range from development and supply of complete weapon systems through upgrade programs to overhaul programs for different kinds of main battle tanks and armored personnel carriers.

FSDS has been involved in the conversion of more than two hundred LEOPARD 1A3/A4 to the A5 version for the Danish Army, overhaul of more than a hundred LEOPARD 1's and overhaul/rebuild of more than a thousand APC M113.

FSDS has recently produced parts for the modernization of LEOPARD 2.

FSDS also retrofits/overhauls different kinds of mechanical, hydraulic and electrical components for the Danish Army's main workshop.

Upgrading and Overhauling Examples:

APC M113 FOV for overhaul (+1000 pcs) and retrofit.

MBT LEOPARD 1 (+200)
